KNAPHEIDE DUMP BODIES

The Knapheide Dump Body is where style, versatility, and durability come together. When landscape or general contractors need a productive dump body that will last a lifetime, they choose the Knapheide Dump Body every time.

Our Dump Bodies are available in 9'6" to 11'6" lengths and side heights of 12" or 16" to accommodate 2.5 to 4 cubic yard carrying capacity. Models are offered with either stacked crossmembers or crossmemberless understructures and rigid or drop sides. Select from a variety of options to make your Dump Body a perfect fit.

STANDARD FEATURES

- A** Sides and tailgate feature self-cleaning sloped top rails and lower rails
- B** Sides are constructed of 12 gauge high tensile steel
- C** 2x6 side board pockets on the sides at the front and rear allow for increased load capacity
- D** Versatile double acting tailgate in order to accommodate both drop down pick-up style and spreader applications
- E** Quick release, one-handed lever for easy drop down action on the tailgate
- F** Toe saver brackets located on both sides of the end rail for operator safety
- G** Rear corner posts equipped with a hook on each side for an optional tarp
- H** Quarter cab protector constructed of 10 gauge high tensile steel with a punched window for visibility

*Body may be shown with optional features

Other features not shown above:

- Double panel tailgate construction with 12 gauge HY50 outer panel and 10 gauge HY50 inner panel
- Crossmemberless models (shown above) feature fully boxed long sills constructed of 7 gauge HRCQ steel and run the entire length of the floor, stacked crossmember models feature 3" structural steel cross sills with 6" structural steel long sills
- Crossmemberless models feature two piece 7 gauge HRCQ steel floor with full seam weld down the center, stacked crossmember models feature two piece 10 gauge HRCQ steel floor with full seam weld down the center
- Complete immersion in Knapheide's electrodeposition prime paint system provides superior corrosion resistance
- Bodies are fully protected with Knapheide's water based undercoat

Since 1848, The Knapheide Manufacturing Company has continued to be an industry leader, with a vast distribution network and expert staff ready to help.

COMMITMENT TO CORROSION RESISTANCE

Corrosion shouldn't be a concern when you buy quality Knapheide products. To give you the best protection from corrosion, we installed our state-of-the-art, custom-designed electrodeposition prime paint system. Our E-coat system bonds prime paint to steel by an electroplating process, to give you a superior coat of primer resulting in better corrosion protection compared to spraying methods. Complete immersion in our E-coat results in a prime coat that provides the best chemical and solvent resistance.

Because of our commitment to corrosion resistance, you should never worry about the quality of your Knapheide products.

- No Rust Through
- Free from Defects in Workmanship
- Free from Defects in Materials
